

CrownCornice is a manufacturer of decorative crown mouldings that are characterized by their distinctively different details and profiles. These mouldings can be used traditionally where the wall meets the ceiling or on other applications such as kitchen cabinetry, furniture, valances, and mantels.

- Engineered Wood Product – will not crack, shrink or expand
- The elegance of plaster mouldings at a fraction of the cost
- Primed white finish; can be painted or glazed
- Crown moulding available in 16 ft. lengths – long lengths mean fewer cuts, ensuring a beautiful finish with fewer seams
- 5" recommended for 8' ceiling height
- 7" recommended for 9' ceiling height

INTRICATE DESIGNS, SUPERIOR QUALITY AND HIGHER LEVEL OF SERVICE...THAT'S CROWN CORNICE.
